

More Guaranty Fund Bank Talk SECURITY

SECURITY is the most important consideration in the selection of a depository for your money. Confidence in the security offered by the bank selected prevents sleepless nights and troubled dreams on the part of the innumerable depositors in the United States. If the security behind the deposit is absolute every part of the business structure works in perfect accord and financial storms are unknown.

Much thought has been expended in arriving at the best method to supply this security and thereby maintain absolute confidence to the end that all financial disorder should cease.

The best minds have adopted the theory of a Depositor's Guaranty Law, whereby the Nation or State creates a fund for the payment of deposits in case of necessity. This plan has been tried out and has redeemed all promises made by its advocates. It has met all emergencies without delay and contains no flaw.

The Government alone can give the security demanded by the people, and in the Government, National or State, the power to protect the depositor must rest.

The depositor will be content in the knowledge that the State has provided a fund for the absolute protection of his deposit. The state is absolute in its protection while no subordinate institution can be.

Texas, ever ready to protect its citizens, is one of four States in the Union to adopt a Depositor's Guaranty Law, and to offer to depositors in its Guaranty Fund Banks the protection prescribed by that law.

This bank has availed itself of that Law and is offering its customers the absolute security guaranteed by the Guaranty Fund created by the State for their protection.

The citizens are having a barbecue for election day and the cowboys are going to have a dance tonight.

Miss Ida King of Toyahvale, is here visiting her sister, Mrs. W. P. Hunt.

R. H. Espy has postponed his trip to Mexico until after the primaries, saying he wants to cast his vote for Hall for sheriff and Davidson for governor.

Rowdy Love was down on a flying trip from Sierra Blanca and reports the condition of the range to be very good on his ranch near the New Mexico line north of Blanca.

SOCORRO REPLATS CITY!
MECHANIC ANNOUNCES COURT

College Sweethearts Wed, Go to West Virginia. Entries for Albuquerque Dog Show: Fair Is Agitated.

Socorro, N. M., July 23.—Surveyor Herick has been engaged by the city council to replat the entire city and is laying new surveys made of their property.

Although the weather has been warm here, there has been comparatively little sickness in Socorro.

Miss Myrtle Kiehn was married to Earl C. Hornbrook, of Elmhurst, W. Va., at the residence of Mr. and Mrs. E. Keeler. Rev. father P. Martin officiated. There were a large number of guests present. The bride couple left for West Virginia, where they will make their future home. Mr. and Mrs. Hornbrook met at the A. & M. college, where they were both students. She was formerly a student at the School of Mines at Socorro. The presents received were beautiful and numerous.

Several dog owners here will be exhibitors at the Albuquerque fair dog show. Some French poodles and two valuable fox terriers will be among the contestants from Socorro.

Judge Mechen will hold a special term of court for the Seventh judicial district beginning September 5. The docket is light.

Postmaster Kittrell reports a larger proportion was agitated. A state June 1910 than during the same months in 1909. The additional business in June 1910, over June, 1909 more than paid the increase allowed by the government in the local postmaster's salary.

Socorro wants a steam laundry. The proposition is worth investigating.

Whether a fair will be held in Socorro this fall is a question. The last three fairs were successes and did much good for the town. Good support is assured if the proposition was agitated. A statehood day and Butte dam day would be something original.

RAINS EXTINGUISH BIG FOREST FIRES

Seven Lives Are Lost in the Northwest; Danger to Towns Past.

Spokane, Wash., July 23.—Heavy showers the last 48 hours have checked the great forest fires that have been threatening towns in Washington, Idaho, Montana and British Columbia, and for the present, danger is apparently past. It is known that seven lives have been lost, five near Kaslo, B. C., and two near Colville, Wash.

The towns of Ryan, Wash., and White-water, McGilgan, Three Forks, Balne's Lake and Jaffray, B. C., are reported wiped out. The loss to timber interests amounts to millions of dollars. For several days at least, 3000 men in Washington alone have been fighting fires.
